Touch Dynamics DT-07 Tablets are specifically designed for POS and to withstand rigorous use in working environments. Featuring a 7" capacitive touch screen display and powered by a 1.2 GHz Quad Core Processor, this Android 4.1.2 Tablet is a must have for your mobile POS needs.

With wiFi driver enhancement, the DT-07 enables high performance on the Android operating platform and comes with two operation modes that can restrict user privileges to specified parties. The built-in NFC technology enables the implementation of contactless card application while the hardware expansion slot provides connection to the optional MSR.

The backup and restore feature enables system integrators to clone a master image for field deployment. Users will also be able to make system recovery with the backup master image.
